# Competitiveness - SC21

Knowing how much you have improved is interesting, knowing how far ahead of the competition you are is essential.

The enhanced framework offers a simple effective route to benchmark, improve and strengthen your business.

## Step 1 Assessment

A scalable two-step assessment. Rapid deployment of “quick wins”. and capture capability performance feedback from its customers

## Step 2 Improvement

An individually focused scalable Continuous Sustainable Improvement Plan (CSIP) including 4 key areas :- Competitive Strategy and Management Systems , Manufacturing Operations, NPI and Supply Chain

## Step 3 Recognition

Evidence based performance awards, customer approved internationally recognized.
